COMPANY OVERVIEW

Central Plant Contractors, LLC is a full-service Plumbing, HVAC, and Industrial Piping Contractor. We provide services with supervision, estimating, and installation of all types of plumbing systems, HVAC systems, and industrial process piping systems. Established in 2020, Central Plant Contractors, LLC is a Service Disable Veteran-Owned Small Business that provides expertise in plumbing and HVAC services to the Government and Commercial Customers.

CORE CAPABILITIES

We specialize in delivering premium services for organizations while maintaining safe work practices and safe environment in the following areas.

HVAC: Servicing, repairing, and replacing all types of HVAC equipment and systems. Including chillers, cooling towers, pumps, exhaust, and air conditioning units.

PLUMBING: Servicing, repairing, and replacing all types of plumbing equipment and systems. Including water heaters, water softeners, plumbing fixtures, pumps, and all types of piping.

INDUSTRIAL: Servicing, repairing, and replacing all types of industrial process piping and equipment. Including all types of welding.

Key Differences

OUR EMPLOYEES: We offer knowledge of how different types of equipment and systems operate and work. We are a Union Company with licensed plumbers, certified welders, and certified HVAC installers.

OUR CUSTOMERS: We value our customer's needs for repairing or replacing plumbing and HVAC equipment and parts in a timely manner. We provide our services at an affordable rate and at the customer's convenience.

OUR GOALS: Our goal is to earn repeat business with our customers through high-quality work standards, competitive pricing, and our knowledge of equipment and systems.
