

Financial Information for the Apollo Genetics Test

APOLLO GENETICS PROMISE

Insurance can be complicated, and we want you to feel comfortable knowing what you'll owe. We promise that if your out-of-pocket cost could be more than \$100, we'll call you before we process your test.

What to Know about the Cost of an Apollo Genetics Test

We Bill Your Insurance – We bill your insurance for the cost of the Apollo test.

What You Owe – Insurance plans vary but if you have a traditional Medicare, your cost is \$0. If you have Medicare Advantage or other insurance, you may be expected to cover a portion of the test. This is where the Apollo Genetics Promise will help you.

Billing Insurance Takes Time – It will likely be several months before you receive a bill from us, if applicable. We'll keep you informed along the way.

Get Assistance from Apollo Genetics

We offer the Apollo Genetics' Financial Assistance Program to help further reduce your cost. Find out if you qualify using our financial assistance calculator on our website: apollogenetics.com/FA. Our program is based on household income, number of people in household and other federal guidelines.

Below is an example for a family of four living in the continental 48 states.

HOUSEHOLD INCOME FOR A FAMILY OF FOUR*	YOUR FINAL COST
\$0 - \$27,750	Up to \$25
\$27,751 - \$55,500	Up to \$75
\$55,501 - \$111,000	Up to \$150
\$111,001 and above	Apollo Health Group Promise Applies

*Patient assistance is based on the 2022 Federal Poverty Income Sliding Scale. Combined household income must be less than or equal to four times the federal poverty guidelines. This is based on the HHS Poverty Guidelines. Restrictions may apply.

If your cost is \$150 or more, we also have a 12-month, interest-free payment plan that allows you to spread your cost for the test over an entire year.
