## Watch, Touch, Taste and Play with Movies

### What is Cine Mini?

Cine Mini is a new unique multi-sensory cinema experience created specifically for young families with the motto:

#### 'Play with Movies'

Turning the idea of a traditional trip to the cinema on its head, Cine Mini is a fun, relaxed, imaginative and interactive way to introduce children to the wonders of the silver screen.

As well as showing new and old family favourites in unique venues, guests will be invited to join in with movie-related play such as crafts, themed activities, face painting, special VIP appearances, and immersive experiences before and throughout the film.

#### How it Works:

Cine Mini events are completely bespoke.

The venue, theme, activities, and special appearances are unique to each film being screened.

#### 1. PLAY WITH MOVIES

Before each screening, we set the scene with themed activities such as imaginative crafts, face painting, games, food, drink and entertainment experiences.

#### 2. PLAY THE MOVIE

As guests move through to the screening room, they will be stepping into a magical storytelling world where they will have the freedom to explore as only children can. During the film, props, performances and special guests create an unparalleled viewing experience, engaging children and sparking imaginations. You'll be on the edge of your beanbag!

### About Us

As parents we wanted to take our children to the movies, but in a way we could all experience the magic of storytelling as a family without being confined to a seat in a dark room. Cine Mini was founded in 2016 by Melloney Cunnell and Michelle Tyler.
